

# APARNA KESHARWANI

I'm a versatile Full-stack developer with expertise in front-end and back-end development, as well as MySQL Database Management. I'm passionate about creating smooth user experiences and well-versed in web development best practices. I thrive in agile environments, collaborating with cross-functional teams to deliver top-notch products. My experience extends to data science, machine learning, AI, and NLP, allowing me to craft innovative applications for a seamless user experience. Always eager to learn about new technologies in the field.

## Employment History

### Senior Software Engine at LTIMindtree, Pune, Maharashtra (July 2022- Present)

**Model Risk Management System, CITI Bank:** - As a full stack developer, I have experience working on a wide range of projects, from small web applications to large-scale enterprise applications. I have worked with clients in the field of Banking and Financial Services. In my most recent position, I worked on developing and maintaining a large-scale e-commerce platform, collaborating with a team of developers and designers to deliver a responsive and engaging user experience. I have developed various features including UI and Email notifications at a desired interval. Solving Production issues was day to day task for us.

- **Skills Acquired** - Java, Spring Boot, jQuery, Oracle SQL Database, TDD, HTML, CSS, JS, Angular, Agile, JIRA, Bitbucket, Deployment, Stages of Product Development, Banking Systems, JFrog, VCS, etc.
